Yeah I sent that email to to 2 co-chairs for the RRT. Problem is...,we don't have enough disasters to make it automated. It is getting better over time but not perfect. You will want to put a Situation Report together on your calls. Should be one page. No more than 3 bullets. Have a running total of calls from public and animal calls. Provide your contact info. You can use the ATSDR faq to help develop any info for your Sit Reps.

Any question from a PCC check w mark ryan. It is time to shine. Your work will be looked at in the White House!! If you and Colorado want to conference call, let me know. I am working honey bees today with my Dad.

>> On behalf of RRT Co-Chair David Ostrander, I am requesting ATSDR deploy resources to assist the OSC working the Gold King Mine Release in Durango, CO. Specifically we seek technical assistance via one ATSDR environmental health initial person to help UC with human health threat assessment and analysis, and exposure prevention and mitigation. This person would deploy for approximately one week but, if assistance is needed longer, we would expect additional personnel to rotate to the site, preferably with opportunity to overlap/transition to the incident.
